

**NEW**

# B3901N

Nexera<sup>®</sup> **LIBERTY LINK<sup>®</sup>**

**A high yielding, mid-season, Brevant<sup>®</sup> seeds Nexera<sup>®</sup> canola hybrid with an industry-leading disease package and excellent early season growth.**

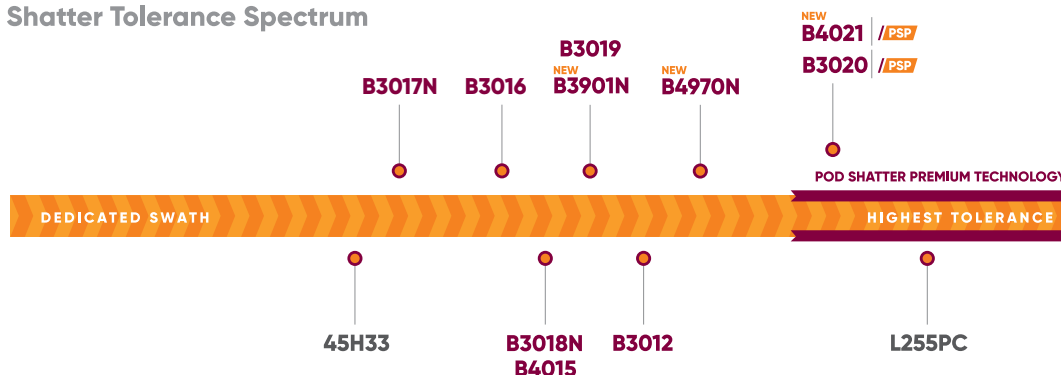

B3901N is a high-performing LibertyLink<sup>®</sup> Nexera<sup>®</sup> hybrid with an exceptional disease package and improved pod shatter tolerance compared to B3018N. B3901N offers an above-average Verticillium Stripe tolerance and strong adult Blackleg resistance, effectively mitigating the impact of these key diseases.
